PHOTOSHOP - Level 1

Duration: 1 Day

Time: 8.30am to 4.00pm

OVERVIEW

This 1-day Adobe Photoshop course is designed to fast-track your learning and teach you the basics of photo editing. Our industry experts will guide you through the fundamentals of Photoshop so you can hit the ground running after completing the course.

Using the latest version of Photoshop, you'll discover the basic tips and tricks used by professional graphic designers and learn valuable techniques and shortcuts to help you get started.

This course is designed for those with little or no Photoshop experience and will give you the know-how to complete simple Photoshop tasks. You'll learn how to retouch photos, replace backgrounds, crop photos, use finish effects and much more.

Adobe Photoshop Level 1 is perfect for anyone wanting to create social media content in-house and edit and manipulate images for marketing collateral.

Want to learn more? Sign up for our Level 2 Adobe Photoshop course to further your skills.
